Axel 2000 Foam Pump Sprayer

Product Description:

This sprayer is unique due to its versatility. Thanks to the EPDM seals, the sprayer is perfectly suitable for a large number of cleaning agents/soaps and applications.

Extremely easy to use, simply fill the sprayer (up to 2/3 Litre) and a few short pumps (approx. 4 bar), the AXEL Foam Sprayer is immediately ready for use. Three extra foam nozzles are included and these can be easily and quickly changed depending on the foam thickness that is required. With the removal of the foam nozzle inserts, the AXEL 2000/3000 can be used like a normal pressure sprayer.

This is why the AXEL foam sprayers are probably the best foam sprayers of this type available in the market.

Equipment:

Included are 3 extra foam nozzles with exchangeable pads.
EPDM seal.

Technical Details:
