ST-2615 Wash Gun Swivel (Orange)

Product Description:

Professional gun. Ceramic ball, chemically resistant valve and acid-resistant stainless steel seal seat. Designed for applications e.g. in the construction industry, road works or mining. The Suttner ST2600 range of guns are based on the best selling ST2300 guns, but with the added advantage of being fitted with the LTF (Low Trigger Force) trigger system. The LTF system has a 90% less holding force and a 40% less trigger pulling force, than the standard market wash guns. The ST2600 range of guns also allows for the possibility of a private label version, should you require your company name & number to be advertised on the side panel (min number required).
