Milling Nozzle 12F 4F 6R

Product Description

With its 3 to 4 very strong concentrated forward jets and the sharp cutting edges the milling type nozzles will tear through almost any kind of blockage. The sharp edges cut, break and penetrate through every kind of blockage. Made out of wear-resistant, hardened stainless steel. All nozzles are equipped with replaceable hardened stainless steel rear and centric front jets. Due to this feature the efficiency is considerably higher compared to those nozzles with drilled holes and the service life is several times longer

Hardened stainless steel.

For Tubes > 30mm

Technical Specifications

Inlet:	½" F
Size:	250
Max:	350 BAR
Jets:	4 Front
Jets:	6 rear
