

Product information and Instructions

Nerta Bio Polish (Available in 5L and 25L)

Nerta Bio Polish is a concentrated gloss, drying and preservative agent, based on biodegradable cationic surfactants, basically a touchless solution to wax your vehicle.

Mixing Ratios:-
a Suttner ST73 Foam Lance
100% soap on setting 1 (2-2.5%)

LS-3 (Formally known as PA Foam Lance):
100ml soap to 900ml water. The regulator should be in the full minus position.

Should you have any other brand foam lance, based on a 1L chemical bottle, please mix between 50 – 100ml of Nerta Bio Polish to 900-800ml of water. Please note that this is a guide only as it is dependent on the type of foam lance and the pressure washer's pressure and flow settings.

This product can also be used through Suttner Downstream injectors, ST160 / ST164 and the Chiefs InjectaChem
Dousing restrictor 0.7 (1%) to 1.0 (2.5%)

Application Instructions

Apply a thin layer of foam over the **wet** vehicle, no dwell time required.

Using high pressure water start rinsing from the top downwards ensuring all areas are covered. (See video in the "How to Videos").

This product is safe on all paints, stainless steel and chrome.

It is recommended testing all products on a small inconspicuous area before use.

Avoid letting the product dry on the vehicle. Should this happen please re-foam to reactivate the soap and wash off as per the above instructions.

Avoid applying the product on hot surfaces. As the product consists largely of water, on contact with a hot surface the water in the foam will evaporate leaving the product adhered to the surface.

Due to Australian weather conditions, if application of the product in hot conditions cannot be avoided, it is suggested to apply in sections using the above technique.

Please watch the following video as a guide: <https://youtu.be/RzCvRTT4-LM>

Technical Specifications

Product codes

5L – 124007

25L – 124018

Colour: Fluro Green

Foam intensity – Medium

pH 100%: 6,5 ± 0,5

Biodegradability of surfactants: > 90 %

Specific gravity: 0,980 kg/L ±1%

Environmental Information

The surfactants in this product meet the criteria for biodegradability as established in Regulation (EG) n° 648/2004 concerning detergents.

Safe Handling and Storage

The complete safety instructions of the product can be found on the material safety data sheet.

Keep the product in the original and closed packaging and protect from extreme temperatures and direct sunlight.
