

CHIEFS ANNIHILATOR – TECHNICAL DATA SHEET

Chiefs Annihilator can be used as a cement & concrete deposit remover in the building industry. It turns concrete into a porous shell which rinses off, without causing rust or corrosion. It can also be used on lime and calcium deposits.

Annihilator does not contain mineral acids like hydrochloric, sulphuric, phosphoric or hydrofluoric.

INSTRUCTIONS FOR USE

For severe or heavy deposits, use as supplied and soak for 2-4 hours. Can be diluted up to 20% concentration for lighter deposits.

Apply through a pump sprayer or with a rag to ensure all deposits receive a liberal wash. Leave to dwell and rinse with water.

TECHNICAL SPECIFICATIONS

Product code: CHANNO

Colour: Clear/light green

Fragrance: None

Foam intensity* Low

pH 100 % : 2.5-3.0

Dosage: 10-100%

Biodegradability: Readily biodegradable (according to OECD criteria)

Packaging: 20 – 200 – 1000 L

Specific gravity: 1.03 – 1.05

ENVIRONMENTAL INFORMATION

The surfactants in this product meet the criteria for biodegradability as established in Regulation (EC) n° 648/2004 concerning detergents.

SAFE HANDLING AND STORAGE

The complete safety instructions of the product can be found on the material safety data sheet. Only for professional users/specialists.

Keep the product in the original and closed packaging and protect from extreme temperatures.
